SUMMARY

A passionate tech enthusiast with expertise in Python and webdevelopment, dedicated to delivering user-friendly digital solutions. Working on ideaForge, a platform to connect entrepreneurs and investors. My experience includes organizing tech events and working collaboratively on projects, aiming to leverage my skills for impactful contributions in innovative environments

EDUCATION

- **B.Tech - (Computer Science and Engineering - Cyber Security)** October 2022 - June 2026
Gurunanak institutions technical campus
- **Board of Intermediate Education** June 2020 - May 2022
Sri Chaitanya Junior Kalashala

SKILLS SUMMARY

- **Languages:** Python, SQL, Java, C, JavaScript
- **Frameworks:** Flask, UI flutter, React
- **Tools:** Docker, GIT
- **Platforms:** AWS, Linux, Web, Windows
- **Soft Skills:** Team Coordination, Event Organization, Technical Communication, Deadline Management , Team Leading

EXPERIENCE

- **Salesforce** Internship
Developer in trailmaix May 2025 - July 2025
 - As a Salesforce Developer Intern at Trailmix, I am gaining hands-on experience with Salesforce's ecosystem, working on real-time CRM solutions. My key responsibilities and learning areas include: where I build automation using Flows, Apex, and Lightning Components. I work on CRM customization, data queries with SOQL, and create dashboards. This role enhances my skills in cloud development, debugging, and collaborating on scalable, real-time Salesforce solutions for business needs.
- **Saiket Systems** Internship
Python Developer April 2025 - May 2025
 - During this period, I served as a Python Development Intern and displayed remarkable dedication, sincerity, and a strong desire to learn. Exhibited exceptional analytical thinking, data modeling skills, and effective communication abilities. I consistently approached new assignments and challenges with enthusiasm, showcasing my passion for Python Development.

PROJECTS

- **IdeaForge**
Full-stack Development
 - My very own idea professional working website where investor and entrepreneur get connected and seamless idea exchange happens for better future.
- **Light weight deep learning model for weapon detection**
Python
- A deep learned model by using python frameworks and imported libraries where we can detect dangerous objects like weapons by inserting video clips and live camera.

ACHIEVEMENTS

- Hosted the techno week event from our department which took place in our college
- Main member of the GDSC GNI club and organizer
- Created a very own chatbot in NxtWave challenge and got certified.

VOLUNTEER EXPERIENCE

- **GDSC GNI** June 2024 – Present
Technical Volunteer
 - Participated as the technical volunteer and solved few pseudo codes which are developed by them and taken major part of the event.
